

**NEWPORT**  
COMMUNITY  
SCHOOL  
PRIMARY  
ACADEMY

# Online Safety Policy

**Approved on:** February 2023  
**Policy Owner:** School Community Board  
**Review Date:** September 2023

This policy applies to all members of the school community (including staff, learners, volunteers, parents and carers, visitors, community users) who have access to and are users of school digital systems, both in and out of the school. It also applies to the use of personal digital technology on the school site (where allowed).

### Scope of the Online Safety Policy

This Online Safety Policy outlines the commitment of Newport Community School Primary Academy to safeguard members of our school community online in accordance with statutory guidance and best practice. Schools should be aware of the legislative framework under which this Online Safety Policy template and guidance has been produced as outlined in the attached 'Legislation' Appendix.

**This Online Safety Policy applies to all members of the school community (including staff, learners, volunteers, parents and carers, visitors, community users) who have access to and are users of school digital systems, both in and out of the school. It also applies to the use of personal digital technology on the school site (where allowed).**

Newport Community School Primary Academy will deal with such incidents within this policy and associated behaviour and anti-bullying policies and will, where known, inform parents/carers of incidents of inappropriate online safety behaviour that take place out of school.

### Policy development, monitoring and review

This Online Safety Policy has been developed by Online Safety Group made up of:

- *headteacher/senior leadership team*
- *online safety lead*
- *staff – including teachers/support staff/technical staff*
- *school community board*
- *parents and carers*
- *community users*

Consultation with the whole school community has taken place through a range of formal and informal meetings.

### Schedule for development, monitoring and review

This Online Safety Policy was approved by the School Community Board on:	10 <sup>th</sup> February 2023
The implementation of this Online Safety Policy will be monitored by:	The Headteacher and the Online Safety Lead
Monitoring will take place at regular intervals:	Annually

The School Community Board will receive a report on the implementation of the Online Safety Policy generated by the monitoring group (which will include anonymous details of online safety incidents) at regular intervals:	As part of the cyclical curriculum update.
The Online Safety Policy will be reviewed annually, or more regularly in the light of any significant new technological developments, new threats to online safety or incidents that have taken place. The next anticipated review date will be:	September 2023
Should serious online safety incidents take place, the following external persons/agencies should be informed:	Headteacher / DSL / Trust Information Governance Lead / Trust Safeguarding Lead / LADO (if necessary)

### Process for monitoring the impact of the Online Safety Policy

The school will monitor the impact of the policy using:

- *logs of reported incidents*
- *monitoring logs of internet activity (including sites visited)*
- *internal monitoring data for network activity*
- *surveys/questionnaires of:*
  - *learners*
  - *parents and carers*
  - *staff.*

### Policy and leadership

#### Responsibilities

To ensure the online safeguarding of members of our school community it is important that all members of that community work together to develop safe and responsible online behaviours, learning from each other and from good practice elsewhere, reporting inappropriate online behaviours, concerns, and misuse as soon as these become apparent. While this will be a team effort, the following sections outline the online safety roles and responsibilities of individuals and groups within the school.

#### Headteacher and senior leaders

- The headteacher has a duty of care for ensuring the safety (including online safety) of members of the school community and fostering a culture of safeguarding, though the day-to-day responsibility for online safety may be delegated to the Online Safety Lead.
- The headteacher and (at least) another member of the senior leadership team should be aware of the procedures to be followed in the event of a serious online safety allegation being made against a member of staff

- The headteacher/senior leaders are responsible for ensuring that the Online Safety Lead, technical staff, and other relevant staff carry out their responsibilities effectively and receive suitable training to enable them to carry out their roles and train other colleagues, as relevant.
- The headteacher/senior leaders will ensure that there is a system in place to allow for monitoring and support of those in school who carry out the internal online safety monitoring role.
- The headteacher/senior leaders will receive regular monitoring reports from the Online Safety Lead.

### School Community Board

Representatives are responsible for the approval of the Online Safety Policy and for reviewing the effectiveness of the policy.

This review will be carried out by the School Community Board whose members will receive regular information about online safety incidents and monitoring reports.

The School Community Board will also support the school in encouraging parents/carers and the wider community to become engaged in online safety activities.

### Online Safety Lead

The Online Safety Lead will:

- lead the Online Safety Group
- work closely on a day-to-day basis with the Designated Safeguarding Lead (DSL), where these roles are not combined
- take day-to-day responsibility for online safety issues, being aware of the potential for serious child protection concerns
- have a leading role in establishing and reviewing the school online safety policies/documents
- promote an awareness of and commitment to online safety education / awareness raising across the school and beyond
- liaise with curriculum leaders to ensure that the online safety curriculum is planned, mapped, embedded and evaluated
- ensure that all staff are aware of the procedures that need to be followed in the event of an online safety incident taking place and the need to immediately report those incidents
- receive reports of online safety incidents and create a log of incidents to inform future online safety developments
- provide (or identify sources of) training and advice for staff /parents/carers/learners
- liaise with (school/local authority/MAT/external provider) technical staff, pastoral staff and support staff (as relevant)
- attend relevant School Community Board meetings/groups
- report regularly to headteacher/senior leadership team.

- liaises with the local authority/MAT/relevant body.

### Designated Safeguarding Lead (DSL)

The Designated Safeguarding Lead should be trained in online safety issues and be aware of the potential for serious safeguarding issues to arise from:

- sharing of personal data
- access to illegal/inappropriate materials
- inappropriate online contact with adults/strangers
- potential or actual incidents of grooming
- online bullying.

### Curriculum Leads

Curriculum Leads will work with the Online Safety Lead to develop a planned and coordinated online safety education programme.

This will be provided through:

- a discrete programme
- PHSE and SRE programmes
- A mapped cross-curricular programme
- assemblies and pastoral programmes
- through relevant national initiatives and opportunities e.g. [Safer Internet Day](#) and [Anti-bullying week](#).

### Teaching and support staff

School staff are responsible for ensuring that:

- they have an awareness of current online safety matters/trends and of the current school Online Safety Policy and practices
- they understand that online safety is a core part of safeguarding
- they have read, understood, and signed the staff acceptable use agreement (AUA)
- they immediately report any suspected misuse or problem to the Headteacher for investigation/action, in line with the school safeguarding procedures
- all digital communications with learners and parents/carers should be on a professional level *and only carried out using official school systems*
- online safety issues are embedded in all aspects of the curriculum and other activities
- ensure learners understand and follow the Online Safety Policy and acceptable use agreements, have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- they supervise and monitor the use of digital technologies, mobile devices, cameras, etc., in lessons and other school activities (where allowed) and implement current policies regarding these devices
- in lessons where internet use is pre-planned learners should be guided to sites checked as suitable for their use *and that processes are in place for dealing with any unsuitable material that is found in internet searches*

- where lessons take place using live-streaming or video-conferencing, staff must have full regard to national safeguarding guidance and local safeguarding policies.
- have a zero-tolerance approach to incidents of online-bullying, sexual harassment, discrimination, hatred etc
- they model safe, responsible, and professional online behaviours in their own use of technology, including out of school and in their use of social media.

### Network manager/technical staff

The IT technician is responsible for ensuring that:

- they are aware of and follow the school Online Safety Policy and Technical Security Policy to carry out their work effectively in line with school policy
- the school technical infrastructure is secure and is not open to misuse or malicious attack
- the school meets (as a minimum) the required online safety technical requirements as identified by the Trust or other relevant body
- there is clear, safe, and managed control of user access to networks and devices
- they keep up to date with online safety technical information in order to effectively carry out their online safety role and to inform and update others as relevant
- the use of technology is regularly and effectively monitored in order that any misuse/attempted misuse can be reported to the Headteacher for investigation and action
- the filtering policy is applied and updated on a regular basis and its implementation is not the sole responsibility of any single person.
- monitoring software/systems are implemented and regularly updated as agreed in school policies

### Learners

- are responsible for using the school digital technology systems in accordance with the learner acceptable use agreement and Online Safety Policy.
- should understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so
- should know what to do if they or someone they know feels vulnerable when using online technology
- should understand the importance of adopting good online safety practice when using digital technologies out of school and realise that the school's Online Safety Policy covers their actions out of school, if related to their membership of the school.

### Parents and carers

Parents and carers play a crucial role in ensuring that their children understand the need to use the online services and devices in an appropriate way.

The school will take every opportunity to help parents and carers understand these issues through:

- publishing the school Online Safety Policy on the school website

- providing them with a copy of the learners' acceptable use agreement
- publish information about appropriate use of social media relating to posts concerning the school
- seeking their permissions concerning digital images, cloud services etc
- parents'/carers' evenings, newsletters, website, social media and information about national/local online safety campaigns and literature.

Parents and carers will be encouraged to support the school in reinforcing the online safety messages provided to learners in school

### Community users

Community users who access school systems/website/learning platform as part of the wider school provision will be expected to sign a community user AUA before being provided with access to school systems.

The school encourages the engagement of agencies/members of the community who can provide valuable contributions to the online safety provision and actively seeks to share its knowledge and good practice with other schools and the community.

### Online Safety Group

The Online Safety Group has the following members

- Online Safety Lead
- Designated Safeguarding Lead
- Senior Leadership Team
- School Community Board Representative
- technical staff
- teacher and support staff members
- learners
- parents/carers

Members of the Online Safety Group will assist the Online Safety Lead with:

- the production/review/monitoring of the school Online Safety Policy/documents
- the production/review/monitoring of the school filtering policy (if possible and if the school chooses to have one) and requests for filtering changes
- mapping and reviewing the online safety education provision – ensuring relevance, breadth and progression and coverage
- reviewing network/filtering/monitoring/incident logs, where possible
- encouraging the contribution of learners to staff awareness, emerging trends and the school online safety provision
- consulting stakeholders – including staff/parents/carers about the online safety provision

## Professional Standards

There is an expectation that required professional standards will be applied to online safety as in other aspects of school life i.e., policies and protocols are in place for the use of online communication technology between the staff and other members of the school and wider community, using officially sanctioned school mechanisms.

## Policy

### Online Safety Policy

The school Online Safety Policy:

- sets expectations for the safe and responsible use of digital technologies for learning, administration, and communication
- allocates responsibilities for the delivery of the policy
- is regularly reviewed in a collaborative manner, taking account of online safety incidents and changes/trends in technology and related behaviours
- establishes guidance for staff in how they should use digital technologies responsibly, protecting themselves and the school and how they should use this understanding to help safeguard learners in the digital world
- describes how the school will help prepare learners to be safe and responsible users of online technologies
- establishes clear procedures to identify, report, respond to and record the misuse of digital technologies and online safety incidents, including external support mechanisms
- is supplemented by a series of related acceptable use agreements
- is made available to staff at induction and through normal communication channels and circulated via e-sign on an annual basis
- is published on the school website.

### Acceptable use

The school has defined what it regards as acceptable/unacceptable use and this is shown in the tables below.

#### Acceptable use agreements

The Online Safety Policy and acceptable use agreements define acceptable use at the school. The acceptable use agreements will be communicated/re-enforced through:

- staff induction and handbook
- communication with parents/carers
- built into education sessions

- school website
- peer support.

User actions		Acceptable	Acceptable at certain times	Acceptable for nominated	Unacceptable	Unacceptable and illegal
Users shall not access online content (including apps, games, sites) to make, post, download, upload, data transfer, communicate or pass on, material, remarks, proposals or comments that contain or relate to:	<p><b>Any illegal activity for example:</b></p> <ul style="list-style-type: none"> <li>• Child sexual abuse imagery*</li> <li>• Child sexual abuse/exploitation/grooming</li> <li>• Terrorism</li> <li>• Encouraging or assisting suicide</li> <li>• Offences relating to sexual images i.e., revenge and extreme pornography</li> <li>• Incitement to and threats of violence</li> <li>• Hate crime</li> <li>• Public order offences - harassment and stalking</li> <li>• Drug-related offences</li> <li>• Weapons / firearms offences</li> <li>• Fraud and financial crime including money laundering</li> </ul>					X
Users shall not undertake activities that might be classed as cyber-crime under the Computer Misuse Act (1990)	<ul style="list-style-type: none"> <li>• Using another individual's username or ID and password to access data, a program, or parts of a system that the user is not authorised to access (even if the initial access is authorised)</li> <li>• Gaining unauthorised access to school networks, data and files, through the use of computers/devices</li> <li>• Creating or propagating computer viruses or other harmful files</li> <li>• Revealing or publicising confidential or proprietary information (e.g., financial / personal information, databases, computer / network access codes and passwords)</li> </ul>					X

User actions		Acceptable	Acceptable at certain times	Acceptable for nominated	Unacceptable	Unacceptable and illegal
	<ul style="list-style-type: none"> <li>Disable/Impair/Disrupt network functionality through the use of computers/devices</li> <li>Using penetration testing equipment (without relevant permission)</li> </ul>					
Users shall not undertake activities that are not illegal but are classed as unacceptable in school policies:	Accessing inappropriate material/activities online in a school setting including pornography, gambling, drugs. (Informed by the school's filtering practices and/or AUAs)				X	
	Promotion of any kind of discrimination				X	
	Using school systems to run a private business				X	
	Using systems, applications, websites or other mechanisms that bypass the filtering or other safeguards employed by the school				X	
	Infringing copyright				X	
	Unfair usage (downloading/uploading large files that hinders others in their use of the internet)			X	X	
	Any other information which may be offensive to others or breaches the integrity of the ethos of the school or brings the school into disrepute				X	

	<b>Staff and other adults</b>	<b>Learners</b>
--	-------------------------------	-----------------

Consideration should be given for the following activities when undertaken for non-educational purposes:

Schools may wish to add further activities to this list.

	Not allowed	Allowed	Allowed at certain times	Allowed for selected staff	Not allowed	Allowed	Allowed at certain times	Allowed with staff permission/awareness
Online gaming		■						■
Online shopping/commerce				■	■			
File sharing				■	■			
Social media				■	■			
Messaging/chat		■	■		■			
Entertainment streaming e.g. Netflix, Disney+			■	■	■			
Use of video broadcasting, e.g. YouTube, Twitch, TikTok				■	■			■
Mobile phones may be brought to school			■		■			
Use of mobile phones for learning at school	■				■			
Use of mobile phones in social time at school			■		■			
Taking photos on mobile phones/cameras				■	■			

Use of other personal devices, e.g. tablets, gaming devices								
Use of personal e-mail in school, or on school network/wi-fi								
Use of school e-mail for personal e-mails								

When using communication technologies, the school considers the following as good practice:

- **when communicating in a professional capacity, staff should ensure that the technologies they use are officially sanctioned by the school**
- **any digital communication between staff and learners or parents/carers (e-mail, social media, learning platform, etc.) must be professional in tone and content.** *Personal e-mail addresses, text messaging or social media must not be used for these communications.*
- **staff should be expected to follow good practice when using personal social media regarding their own professional reputation and that of the school and its community**
- **users should immediately report to a nominated person – in accordance with the school policy – the receipt of any communication that makes them feel uncomfortable, is offensive, discriminatory, threatening or bullying in nature and must not respond to any such communication**
- *relevant policies and permissions should be followed when posting information online e.g., school website and social media. Only school e-mail addresses should be used to identify members of staff and learners.*

### Reporting and responding

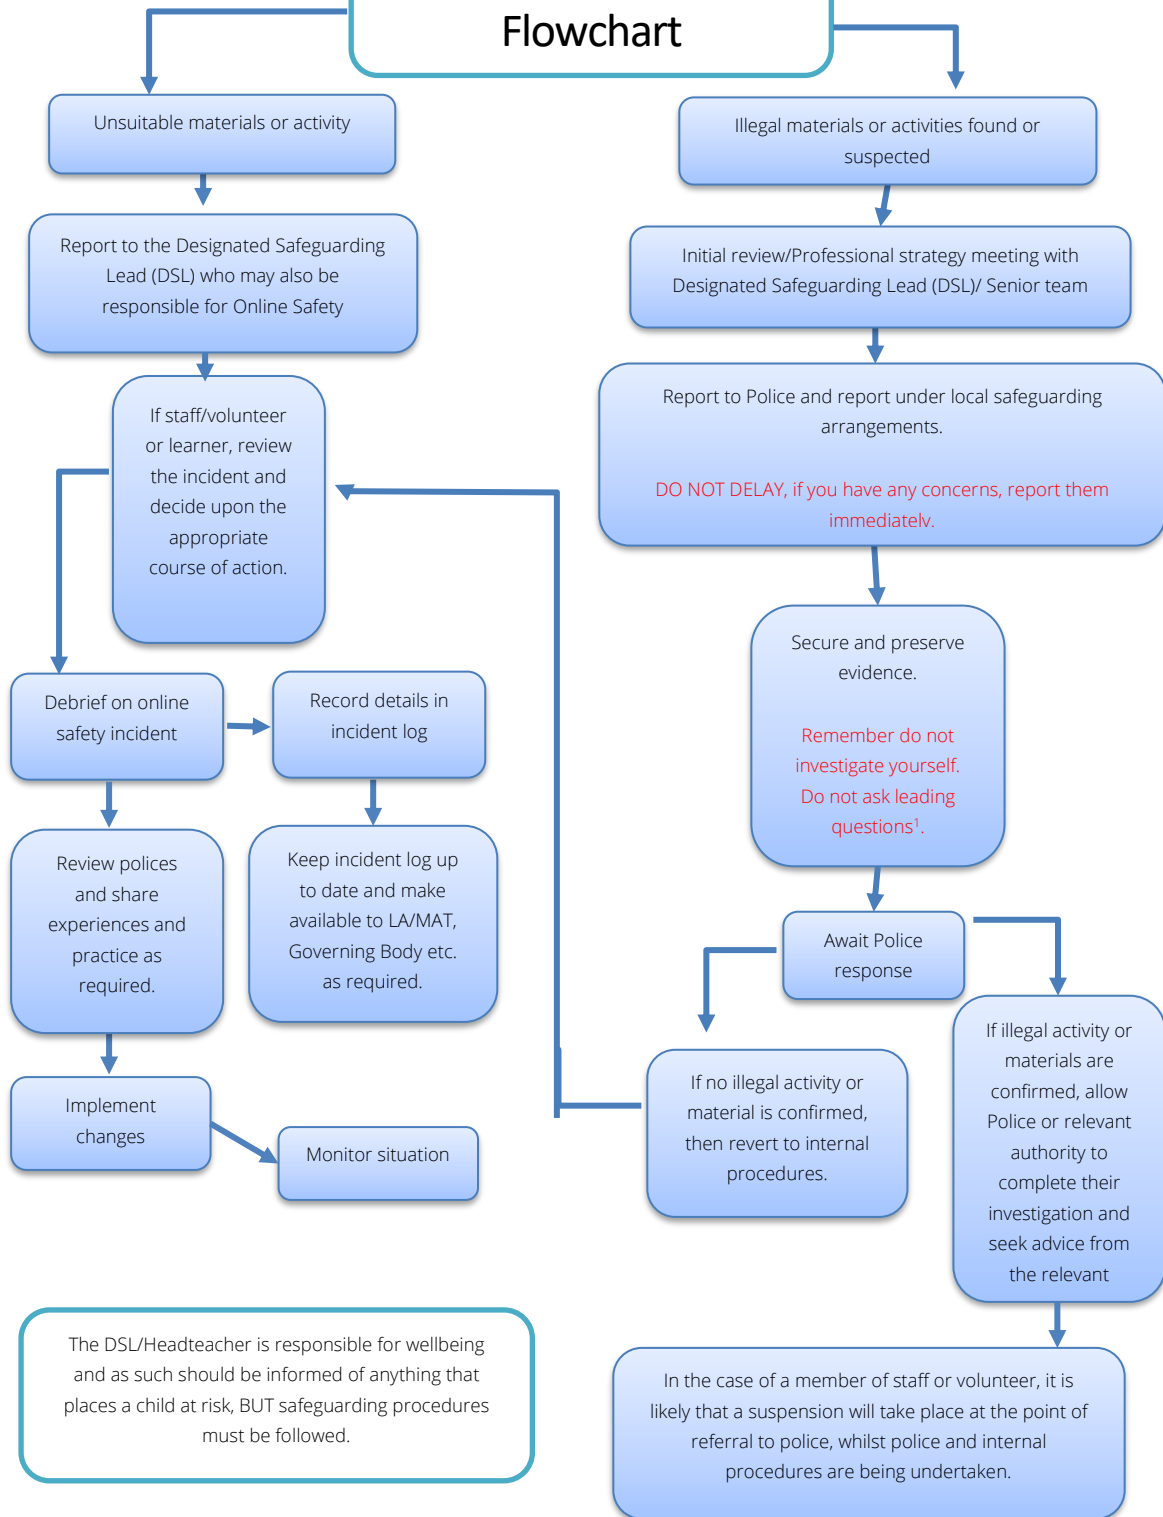

The school will take all reasonable precautions to ensure online safety for all school users but recognises that incidents may occur inside and outside of the school (with impact on the school) which will need intervention. The school will ensure:

- **there are clear reporting routes which are understood and followed by all members of the school community which are consistent with the school safeguarding procedures, and with the whistleblowing, complaints and managing allegations policies.**
- **all members of the school community will be made aware of the need to report online safety issues/incidents**
- **reports will be dealt with as soon as is practically possible once they are received**

- **the Designated Safeguarding Lead, Online Safety Lead and other responsible staff have appropriate skills and training to deal with online safety risks.**
- **if there is any suspicion that the incident involves any illegal activity or the potential for serious harm, the incident must be escalated through the agreed school safeguarding procedures.**
- any concern about staff misuse will be reported to the Headteacher, unless the concern involves the Headteacher, in which case the complaint is referred to the Chief Executive Officer.
- where there is no suspected illegal activity, devices may be checked using the following procedures:
  - one or more senior members of staff should be involved in this process. This is vital to protect individuals if accusations are subsequently reported.
  - conduct the procedure using a designated device that will not be used by learners and, if necessary, can be taken off site by the police should the need arise (should illegal activity be subsequently suspected). Use the same device for the duration of the procedure.
  - ensure that the relevant staff have appropriate internet access to conduct the procedure, but also that the sites and content visited are closely monitored and recorded (to provide further protection).
  - record the URL of any site containing the alleged misuse and describe the nature of the content causing concern. It may also be necessary to record and store screenshots of the content on the machine being used for investigation. These may be printed, signed, and attached to the form
  - once this has been completed and fully investigated the group will need to judge whether this concern has substance or not. If it does, then appropriate action will be required and could include the following:
    - internal response or discipline procedures
    - involvement by local authority / MAT (as relevant)
    - police involvement and/or action
- it is important that those reporting an online safety incident have confidence that the report will be treated seriously and dealt with effectively
- there are support strategies in place e.g., peer support for those reporting or affected by an online safety incident
- incidents should be logged on the CPOMS system
- relevant staff are aware of external sources of support and guidance in dealing with online safety issues, e.g. local authority; police;
- those involved in the incident will be provided with feedback about the outcome of the investigation and follow up actions
- learning from the incident (or pattern of incidents) will be provided to:
  - *the Online Safety Group for consideration of updates to policies or education programmes and to review how effectively the report was dealt with*
  - *staff, through regular briefings*
  - *learners, through assemblies/lessons*
  - *parents/carers, through newsletters, school social media, website*
  - *local authority/external agencies, as relevant*

- The school will make the flowchart below available to staff to support the decision-making process for dealing with online safety incidents.

# Online Safety Incident Flowchart

## School actions

It is more likely that the school will need to deal with incidents that involve inappropriate rather than illegal misuse. It is important that any incidents are dealt with as soon as possible in a proportionate manner, and that members of the school community are aware that incidents have been dealt with. It is intended that incidents of misuse will be dealt with through normal behaviour/disciplinary procedures as follows:

### Responding to Learner Actions

Incidents	Refer to class teacher/tutor	Refer to Member of Senior Leadership Team	Refer to Headteacher	Refer to Police/Social Work	Refer to local authority technical support for advice/action	Inform parents/carers	Remove device/network/internet access	Issue a warning	Further sanction, in line with behaviour policy
Deliberately accessing or trying to access material that could be considered illegal		X	X	X					
Attempting to access or accessing the school network, using another user's account (staff or learner) or allowing others to access school network by sharing username and passwords									
Corrupting or destroying the data of other users.									
Sending an e-mail, text or message that is regarded as offensive, harassment or of a bullying nature									
Unauthorised downloading or									

uploading of files or use of file sharing.								
Using proxy sites or other means to subvert the school's filtering system.								
Accidentally accessing offensive or pornographic material and failing to report the incident.								
Deliberately accessing or trying to access offensive or pornographic material.								
Receipt or transmission of material that infringes the copyright of another person or infringes the Data Protection Act.								
Unauthorised use of digital devices (including taking images)								
Unauthorised use of online services								
Actions which could bring the school into disrepute or breach the integrity or the ethos of the school.								
Continued infringements of the above, following previous warnings or sanctions.								

## Online Safety Education Programme

Online safety should be a focus in all areas of the curriculum and staff should reinforce online safety messages across the curriculum. The online safety curriculum should be broad, relevant and provide progression, with opportunities for creative activities and will be provided in the following ways:

- **A planned online safety curriculum for all year groups matched against a nationally agreed framework e.g. Education for a Connected Work Framework by UKCIS/DCMS and regularly taught in a variety of contexts.**
- **Lessons are matched to need; are age-related and build on prior learning**
- **Lessons are context-relevant with agreed objectives leading to clear and evidenced outcomes**
- **Learner need and progress are addressed through effective planning and assessment**
- **Digital competency is planned and effectively threaded through the appropriate digital pillars in other curriculum areas e.g. PHSE; SRE; Literacy etc**
- **it incorporates/makes use of relevant national initiatives and opportunities e.g. Safer Internet Day and Anti-bullying week**
- **the programme will be accessible to learners at different ages and abilities such as those with additional learning needs or those with English as an additional language.**
- learners should be helped to understand the need for the learner acceptable use agreement and encouraged to adopt safe and responsible use both within and outside school
- staff should act as good role models in their use of digital technologies the internet and mobile devices
- in lessons where internet use is pre-planned, it is best practice that learners should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches
- where learners are allowed to freely search the internet, staff should be vigilant in supervising the learners and monitoring the content of the websites the young people visit
- it is accepted that from time to time, for good educational reasons, students may need to research topics, (e.g. racism, drugs, discrimination) that would normally result in internet searches being blocked. In such a situation, staff should be able to request the temporary removal of those sites from the filtered list for the period of study. Any request to do so, should be auditable, with clear reasons for the need
- **the online safety education programme should be relevant and up to date to ensure the quality of learning and outcomes.**

## Contribution of Learners

The school acknowledges, learns from, and uses the skills and knowledge of learners in the use of digital technologies. We recognise the potential for this to shape the online safety strategy for the school community and how this contributes positively to the personal development of young people. Their contribution is recognised through:

- mechanisms to canvass learner feedback and opinion.
- appointment of digital leaders/anti-bullying ambassadors/peer mentors
- the Online Safety Group has learner representation
- learners contribute to the online safety education programme e.g. peer education, digital leaders leading lessons for younger learners, online safety campaigns
- learners designing/updating acceptable use agreements
- contributing to online safety events with the wider school community e.g. parents' evenings, family learning programmes etc.

## Staff/volunteers

All staff will receive online safety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:

- a planned programme of formal online safety and data protection training will be made available to all staff. This will be regularly updated and reinforced. An audit of the online safety training needs of all staff will be carried out regularly.
- the training will be an integral part of the school's annual safeguarding and data protection training for all staff
- all new staff will receive online safety training as part of their induction programme, ensuring that they fully understand the school online safety policy and acceptable use agreements. It includes explicit reference to classroom management, professional conduct, online reputation and the need to model positive online behaviours
- the Online Safety Lead and Designated Safeguarding Lead will receive regular updates through attendance at external training events and by reviewing guidance documents released by relevant organisations
- this Online Safety Policy and its updates will be presented to and discussed by staff in staff/team meetings

## Families

The school will seek to provide information and awareness to parents and carers through:

- regular communication, awareness-raising and engagement on online safety issues, curriculum activities and reporting routes
  - regular opportunities for engagement with parents/carers on online safety issues through awareness workshops / parent/carer evenings etc
  - the learners – who are encouraged to pass on to parents the online safety messages they have learned in lessons and by learners leading sessions at parent/carer evenings.
  - letters, newsletters, website, learning platform,
  - high profile events / campaigns e.g. [Safer Internet Day](#)
  - reference to the relevant web sites/publications, e.g. [SWGfL](#); [www.saferinternet.org.uk/](http://www.saferinternet.org.uk/); [www.childnet.com/parents-and-carers](http://www.childnet.com/parents-and-carers)
- Sharing good practice with other schools in the Trust.

## Adults and Agencies

The school will provide opportunities for local community groups and members of the wider community to gain from the school's online safety knowledge and experience. This may be offered through the following:

- online safety messages targeted towards families and relatives.
- providing family learning courses in use of digital technologies and online safety
- the school will provide online safety information via their website and social media for the wider community
- supporting community groups, e.g. early years settings, childminders, youth/sports/voluntary groups to enhance their online safety provision

## Technology

The school is responsible for ensuring that the school infrastructure/network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. The school should ensure that all staff are made aware of policies and procedures in place on a regular basis and explain that everyone is responsible for online safety and data protection.

## Filtering

- the school filtering policies are agreed by senior leaders and technical staff and are regularly reviewed and updated in response to changes in technology and patterns of online safety incidents/behaviours
- the school manages access to content across its systems for all users. The filtering provided meets the standards defined in the UK Safer Internet Centre [Appropriate filtering](#).
- access to online content and services is managed for all users
- illegal content (e.g., child sexual abuse images) is filtered by the broadband or filtering provider by actively employing the Internet Watch Foundation CAIC list and the police assessed list of unlawful terrorist content, produced on behalf of the Home Office. Content lists are regularly updated
- there are established and effective routes for users to report inappropriate content
- there is a clear process in place to deal with requests for filtering changes ([see Appendix for more details](#)).
- the school has (if possible) provided enhanced/differentiated user-level filtering (allowing different filtering levels for different abilities/ages/stages and different groups of users: staff/learners, etc.)
- younger learners will use child friendly/age-appropriate search engines
- filtering logs are regularly reviewed and alert the school to breaches of the filtering policy, which are then acted upon.
- where personal mobile devices have internet access through the school network, content is managed in ways that are consistent with school policy and practice.
- access to content through non-browser services (e.g. apps and other mobile technologies) is managed in ways that are consistent with school policy and practice.

## Monitoring

The school has monitoring systems in place to protect the school, systems and users:

- The school monitors all network use across all its devices and services.
- An appropriate monitoring strategy for all users has been agreed and users are aware that the network is monitored. There is a staff lead responsible for managing the monitoring strategy and processes.
- There are effective protocols in place to report abuse/misuse. There is a clear process for prioritising response to alerts that require rapid safeguarding intervention. Management of serious safeguarding alerts is consistent with safeguarding policy and practice
- Technical monitoring systems are up to date and managed and logs/alerts are regularly reviewed and acted upon.

The school follows the UK Safer Internet Centre [Appropriate Monitoring](#) guidance and protects users and school systems through the use of the appropriate blend of strategies strategy informed by the school's risk assessment. [These may include:](#)

- physical monitoring (adult supervision in the classroom)
- internet use is logged, regularly monitored and reviewed
- filtering logs are regularly analysed and breaches are reported to senior leaders
- pro-active alerts inform the school of breaches to the filtering policy, allowing effective intervention.
- where possible, school technical staff regularly monitor and record the activity of users on the school technical systems
- use of a third-party assisted monitoring service to review monitoring logs and report issues to school monitoring lead(s)

## Mobile technologies

The school acceptable use agreements for staff, learners, parents, and carers outline the expectations around the use of mobile technologies.

The school allows:

	School devices			Personal devices		
	School owned for individual use	School owned for multiple users	Authorised device <sup>1</sup>	Student owned	Staff owned	Visitor owned
Allowed in school	Yes	Yes	Yes	No	No	Yes

Full network access	Yes	Yes	Yes	No	No	No
Internet only				No	Yes (Guest Wifi)	Yes
No network access				Yes	Yes	

### Social media

The school provides the following measures to ensure reasonable steps are in place to minimise risk of harm to learners through:

- ensuring that personal information is not published
- education/training being provided including acceptable use, age restrictions, social media risks, digital and video images policy, checking of settings, data protection and reporting issues
- clear reporting guidance, including responsibilities, procedures and sanctions
- risk assessment, including legal risk
- guidance for learners, parents/carers

School staff should ensure that:

- no reference should be made in social media to learners, parents/carers or school staff
- they do not engage in online discussion on personal matters relating to members of the school community.
- personal opinions should not be attributed to the school
- security settings on personal social media profiles are regularly checked to minimise risk of loss of personal information
- they act as positive role models in their use of social media

Staff should refer to the Trusts Social Media Policy for further guidance.

When official school social media accounts are established, there should be:

- a process for approval by senior leaders
- clear processes for the administration, moderation, and monitoring of these accounts – involving at least two members of staff
- a code of behaviour for users of the accounts
- systems for reporting and dealing with abuse and misuse
- understanding of how incidents may be dealt with under school disciplinary procedures.

### Monitoring of public social media

- As part of active social media engagement, the school may pro-actively monitor the Internet for public postings about the school
- the school should effectively respond to social media comments made by others according to a defined policy or process

- when parents/carers express concerns about the school on social media we will urge them to make direct contact with the school, in private, to resolve the matter. Where this cannot be resolved, parents/carers should be informed of the school complaints procedure.

### Digital and video images

The school will inform and educate users about these risks and will implement policies to reduce the likelihood of the potential for harm

- the school may use live-streaming or video-conferencing services in line with national and local safeguarding guidance / policies.
- when using digital images, staff will inform and educate learners about the risks associated with the taking, use, sharing, publication and distribution of images.
- staff/volunteers must be aware of those learners whose images must not be taken/published. Those images should only be taken on school devices. The personal devices of staff should not be used for such purposes
- in accordance with [guidance from the Information Commissioner's Office](#), parents/carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use is not covered by the Data Protection Act). To respect everyone's privacy and in some cases protection, these images should not be published/made publicly available on social networking sites, nor should parents/carers comment on any activities involving other learners in the digital/video images
- staff and volunteers are allowed to take digital/video images to support educational aims, but must follow school policies concerning the sharing, storage, distribution and publication of those images
- care should be taken when sharing digital/video images that learners are appropriately dressed
- learners must not take, use, share, publish or distribute images of others without their permission
- photographs published on the website, or elsewhere that include learners will be selected carefully and will comply with Online Safety Policy
- learners' full names will not be used anywhere on a website or blog, particularly in association with photographs
- written permission from parents or carers will be obtained before photographs of learners are taken for use in school or published on the school website/social media.
- parents/carers will be informed of the purposes for the use of images, how they will be stored and for how long – in line with the school data protection policy
- images will be securely stored in line with the school retention policy
- learners' work can only be published with the permission of the learner and parents/carers.

### Online Publishing

The school communicates with parents/carers and the wider community and promotes the school through

- Public-facing website

- Social media
- Online newsletters
- SeeSaw

The school website is managed/hosted by Wix. The school ensures that online safety policy has been followed in the use of online publishing e.g., use of digital and video images, copyright, identification of young people, publication of school calendars and personal information – ensuring that there is least risk to members of the school community, through such publications.

Where learner work, images or videos are published, their identities are protected, and full names are not published.

### Data Protection

Personal data will be recorded, processed, transferred and made available according to the current data protection legislation.

The school:

- has a Data Protection Policy.
- implements the data protection principles and can demonstrate that it does so
- has paid the appropriate fee to the Information Commissioner’s Office (ICO)
- has appointed an appropriate Data Protection Officer (DPO) who has effective understanding of data protection law and is free from any conflict of interest.
- has a ‘Record of Processing Activities’ in place and knows exactly what personal data is held, where, why and which member of staff has responsibility for managing it
- the Record of Processing Activities lists the lawful basis for processing personal data (including, where relevant, consent). Where special category data is processed, an additional lawful basis is listed
- has an ‘information asset register’ in place and knows exactly [what personal data is held](#), where, why and which member of staff has responsibility for managing it
- information asset register lists the lawful basis for processing personal data (including, where relevant, consent). Where special category data is processed, an additional lawful basis will have also been listed
- will hold the minimum personal data necessary to enable it to perform its function and will not hold it for longer than necessary for the purposes it was collected for. The school ‘retention schedule’ supports this
- data held is accurate and up to date and is held only for the purpose it was held for. Systems are in place to identify inaccuracies, such as asking parents to check emergency contact details at suitable intervals
- provides staff, parents, volunteers, teenagers, and older children with information about how the school looks after their data and what their rights are in a clear Privacy Notice.
- has procedures in place to deal with the individual rights of the data subject,
- carries out Data Protection Impact Assessments (DPIA) where necessary e.g. to ensure protection of personal data when accessed using any remote access solutions, or entering into a relationship with a new supplier

- has undertaken appropriate due diligence and has data protection compliant contracts in place with any data processors
- understands how to share data lawfully and safely with other relevant data controllers.
- has clear and understood policies and routines for the deletion and disposal of data
- [reports any relevant breaches to the Information Commissioner](#) within 72hrs of becoming aware of the breach as required by law. It also reports relevant breaches to the individuals affected as required by law. In order to do this, it has a policy for reporting, logging, managing, investigating and learning from information risk incidents
- has a Freedom of Information Policy which sets out how it will deal with FOI requests
- provides data protection training for all staff at induction and appropriate refresher training thereafter. Staff undertaking particular data protection functions, such as handling requests under the individual's rights, will receive training appropriate for their function as well as the core training provided to all staff

When personal data is stored on any mobile device or removable media the:

- data will be encrypted, and password protected.
- device will be password protected.
- device will be protected by up-to-date endpoint (anti-virus) software
- data will be securely deleted from the device, in line with school policy (below) once it has been transferred or its use is complete.

Staff must ensure that they:

at all times take care to ensure the safe keeping of personal data, minimising the risk of its loss or misuse

- can recognise a possible breach, understand the need for urgency and know who to report it to within the school
- can help data subjects understand their rights and know how to handle a request whether verbal or written and know who to pass it to in the school
- only use encrypted data storage for personal data
- will not transfer any school personal data to personal devices.
- use personal data only on secure password protected computers and other devices, ensuring that they are properly "logged-off" at the end of any session in which they are using personal data
- transfer data using encryption, a secure email account (where appropriate), and secure password protected devices.

## Outcomes

The impact of the Online Safety Policy and practice is regularly evaluated through the review/audit of online safety incident logs; behaviour/bullying reports; surveys of staff, learners; parents/carers and is reported to relevant groups:

- there is balanced professional debate about the evidence taken from the reviews/audits and the impact of preventative work e.g., online safety education, awareness, and training
- there are well-established routes to regularly report patterns of online safety incidents and outcomes to school leadership.

- parents/carers are informed of patterns of online safety incidents as part of the school's online safety awareness raising
- online safety (and related) policies and procedures are regularly updated in response to the evidence gathered from these reviews/audits/professional debate
- the evidence of impact is shared with other schools, agencies and LAs to help ensure the development of a consistent and effective local online safety strategy.
