Introduction and Principles

Management of records by a Public Authority is a legal obligation (Section 46 of the Freedom of Information Act 2000).

The Code issued on 15 July 2021 sets out key principles about records and their management. These are the:-

- Value of the information
- Integrity of the Information
- Accountability for the information

There are a range of statutory, regulatory and guidance that oblige us to accept, create, use, edit, store and dispose of records. It is necessary to establish clarity about records keeping systems.

Aims

- To effectively manage the records that are created and are integral to the operation of the school.
- To confirm a clear framework to manage records and information within the school.
- To provide an environment where records are stored securely.
- To ensure that records are accessible to those who need them.
- To ensure that the school workforce responsible for records management understand these obligations.
- To give effect to the s.46 Code of Practice our records management will take note of the principles it sets out.

Scope

This policy applies to the school workforce and to all school records, whether the records originate within the school or are shared with the school by other means.

Records that are shared with third parties as a result of consent, regulatory obligations or contractual agreements are within the scope of this policy.

In school the records that we access and hold originate and are stored in a variety of formats, that include physical, digital, electronic audio/visual records. Some are held locally in school, others are hosted by third party providers.

All records are within the scope of this policy, records are required to be stored and retained in accordance with the document retention schedule attached to this policy.

Records may refer to individuals, financial planning tools, contracts, commercial organisations, public authorities or charitable organisations. Some records will contain personal data.

Record retention and storage will be reviewed from time to time to ensure that the aims of this policy are met.

Responsibilities and Actions

Tarka Learning Partnership's Board of Trustees is ultimately responsible for this policy, however on a daily basis operational management of the policy is delegated to each school's head teacher and senior leadership team.

Implementation of the policy will be reviewed by Trustees at the Operations, Audit and Risk Committee Board meetings on at least an annual basis.

The Head teacher will be required to monitor compliance with this policy by undertaking at least an annual check to determine if records are stored securely and can be accessed appropriately, in accordance with requirements in this policy.

Within school responsibility for this policy will be with the school's GDPR Lead.

An active retention policy is applied to confirm what records are to be retained and set out a timeline for their secure disposal – see [Record Retention Schedule Appendix A](#).

Individual school staff, contractors and volunteers and employees have personal responsibility for records within their control and day to day handling by ensuring that:

- records are to be handled in accordance with the school policies and good practice for secure storage and usage
- keep accurate records as required
- Personal data contained in records is used in compliance with the UK GDPR and school data protection policies and protocols
- personal information is shared appropriately and with a proper legal basis with any third party;
- records are securely disposed in accordance with the school's Records Retention Schedule

Relationship with existing policies and obligations

This policy has been drawn up within the context of:

- Freedom of Information policy
- Data Protection policy
- Privacy Notices
- Data Sharing Agreements
- Information Security policy
- IT security and use policies
- Records retention policy/guidelines
- and with other legislation or regulations (including audit, equal opportunities and ethics) affecting the trust and schools.

Creation and Management of School Archives

The National Archives has supplied the following information in relation to the creation and management of school archives:

Any school that has an archive is maintained as a resource to help inspire and equip current staff and pupils to understand and appreciate issues of identity, belonging and shared heritage; to prompt memories of school-life among many generations of former pupils; and to serve as a research resource for all interested in the history of the school and the community it serves.

Appendix 1

The school keeps a wide variety of records that may include (but are not limited to):

Students

- Personal information
